In-Class Essay Information

You’re going to be given a hypothetical (imaginary) person. This person is experiencing unhappiness and is not at peace with him- or herself. I will describe what the person’s life is like, so you will be given a detailed profile of the person. Then, you will be asked how you think Tolle would diagnose this person. According to Tolle, why is this person experiencing unhappiness? Your response should be detailed and supported with quotes.

Students will not receive the prompt ahead of time, but that’s a basic overview of what to expect.

Please bring the following:
- A large green or bluebook.
- Bring Tolle’s *A New Earth*
  - it’s an open book essay exam, and it needs supporting quotes.
- You can bring one page of notes (one side), but it can’t have sentences (unless they are pre-selected quotes). Notes are just key words or ideas; all sentences for the in-class essay needs to be written out in class.
- Bringing your own paper dictionary is optional. I will have some in class you can use.
